Vijayapura, Karnataka

Professional Summary

Motivated Computer Science & Engineering student with hands-on experience in Machine Learning, Data Analysis, and Python-based development. Skilled in building and evaluating classification models using Scikit-learn, Pandas, and NumPy. Active open-source contributor (GSSoC & SSoC) with a strong academic record (CGPA 8.7+). Seeking an internship to apply AI/ML skills to impactful, real-world software engineering problems.

Skills

Languages: Python, Java, C

Frameworks / Libraries: Pandas, NumPy, Matplotlib, Scikit-learn, React

Core CS: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Computer Architecture

AI / ML: Machine Learning, Artificial Intelligence, Data Analysis, Data Visualization, Blockchain

Tools: Git, GitHub, VS Code

Experience

Machine Learning Intern

May 2026 – Jun 2026

Axcentra (Virtual)

Internship · 1 Month

- Performed data preprocessing and feature engineering on real-world datasets to prepare clean inputs for ML pipelines.
- Conducted exploratory data analysis (EDA) using Pandas and Matplotlib to identify patterns and data distributions.
- Built and evaluated classification models (Logistic Regression, Decision Tree, Random Forest) using Scikit-learn, assessing performance via accuracy, precision, and recall metrics.
- Completed end-to-end ML assignments using Python, NumPy, and Scikit-learn, gaining practical experience in the full model development lifecycle.

Projects

Water Quality Prediction | Python, Scikit-learn, Pandas, Random Forest

Mar 2026

- Built a Random Forest classifier achieving 67% accuracy on the Water Potability dataset to predict whether water is safe for consumption.
- Performed data preprocessing (null handling, feature scaling) and compared multiple classification algorithms including Logistic Regression, Decision Tree, and Random Forest.

Python Playground | Python, JavaScript, Animations

Apr 2026 – Present

- Developing an interactive web platform to help beginners learn Python through animated visualizations of loops, functions, and data structures.
- Designed to replace static code examples with step-by-step visual walkthroughs, improving comprehension for new learners.

Crop Infestation Detection System | Machine Learning, Image Processing, Python

Feb 2026 – Present

- Leading a group major project to detect crop infestations at an early stage by applying ML techniques to crop images and agricultural data.
- Aims to help farmers identify infestations quickly to minimize crop damage and improve agricultural productivity.

Education

Bachelor of Engineering (B.E), Computer Science & Engineering

2023 – 2027

Secab Institute of Engineering and Technology, Vijayapur

CGPA: 8.7+

PUC (Pre-University Course), Science

2023

Secab PU College, Behind Taj Boudi, Vijayapura

Karnataka School Examination and Assessment Board (KSEAB)

Score: 94.00 / 100

SSLC (Secondary School Leaving Certificate)

2021

Secab Chand Bibi Urdu Girls High School, Vijayapura

Karnataka Secondary Education Examination Board (KSEEB)

Score: 87.20 / 100

Extra-Curricular Activities

- Campus Mantri for Geeks for Geeks 2026
- Contributor — Social Summer of Code 2026 (SSoC Season 5) · Open Source Development
- Contributor & Ambassador — GirlScript Summer of Code 2026 (GSSoC'2026) · Open Source Development

Accomplishments

- Secured Department Top Ranks in the 1st, 2nd, 4th, and 5th Semesters of B.E. Computer Science & Engineering, maintaining a CGPA of 8.7+.
- Secured 94% in the Pre-University (Science) Board Examination and received the Best Student Award.
